

“Patients are the driving force behind new thinking, new processes and revolutionary ideas. They are the reason for innovations and optimisation in dentistry.

Dr Paulo Malo’s statement “To seek perfection in all that we do” must be seen as the inspiration behind the countless treatment methods and protocols adopted globally by dental professionals.

As a world leading provider of dental materials and digital solutions, Kulzer fully embraces this ethos. Through a unique collaboration and a strategic, reliable partnership, MALO CLINIC and Kulzer will continue to surpass patient expectations by providing intuitive products and practices. Together we are giving a hand to oral health.”
